   Progress reports and IEPs have gone out (last week). Keep connected with educators, if you need to reach out for any reason.
   2 school improvement initiatives:
   -First - focus on reading/math - will look through EQAO in January.
   -Second - Building an inclusive school culture and community, making sure everyone who walks through the doors is comfortable. Board put out a survey to students grade 4 and older, those results will be available to the individual schools come the new year. Once results are in, schools are to build a safe inclusive school community committee. Will meet a couple times a year to work on pieces brought up in those results.
   Winter assembly December 21, will be during the school day. Will focus more on student participation not student performance.
   Spirit days - chosen with equitable participation, worded for all students to participate
   Started online announcements to build more community and connections within school.

winter items for staff - bins will be distributed to classes in January
Possibly placing bin out front for return of items that have left property
