WRAPSC Report	Summary of WRAPSC meeting Nov 2 - PRO Grants and Fundraising presentations from Superintendent Matthew Gerrard - Small and Large group discussions on Equity and Inclusion - MOSAIC presentation on community supports
Financial Report and Discussion	- Current financial status/review: ~$8500+ after $15000 deducted for sound system funding. Previously had wanted to hold $2000-$3000 in account as base - Follow up on Speaker System installation: Genesis Integration was chosen as vendor. Although most expensive they were the most professional and knowledgeable, more info to come re: launch date but most likely not before Winter Break; may be later January/early February. Funding will come from School Council ($15000, plus School Funds and WEFI funds) - Planning for 2021-22 School Year budget: deferred to January.
Other Business	- WRAPSC role and information discussed - Steve will look into any funds or memorials for Ms. Morgan so Council can see how it may support - Discussion and update on outdoor School Nutrition Breaks. Due to condition of field, tarmac only nutrition breaks are necessary and due to limited size of tarmac, each Grade only gets one time/day on tarmac; other break is inside. Teachers trying to get classes outside for daily physical activity (DPA) as much as possible. When field becomes harder (freezes), both nutrition breaks will again be outdoors. - Due to supervision limitations, cannot get both grades out for 20 min t each break - Lockers: site by site decisions. Some schools have opened up lockers for some grade, eg. Gr 8. Centennial has 6 x Gr 8 classes in portables and 2 in school which would mean a lot of traffic in and out of school. - School Board does hire lunch monitors; requests must be out in at end of June. At Centennial they have an additional 175 minutes funded through EAs, etc.
Closing	**Meeting ended at** **Next meeting Jan 26th**
