Empire School Council Agenda
June 10, 2025 at 6:30 PM

meet.google.com/wbh-uuuj-amz

Welcome and Round table Introductions (Khaled + attendees - 5 min)

Approval of previous month's meeting minutes - (Khaled + attendees - 5 min)

Principal / Vice-principal Report (Lynda / Lindsay - 10 min)

What's Going on at Empire:

- EQAO complete: 3s and 6s have completed it and it went well. It took 2.5 days
- Staffing updates: Mrs. Low is retiring and Mrs. Wilton will be taking over. Mrs. Vacek will be moving back to kindergarten. Ms Mills will be moving into grade 1. Mrs. Heisler (currently sharing with Mrs. Bates) will be moving to kindergarten. We have no VP next year - this is common for the population of our school.
- Welcome to Kindergarten night tomorrow! Each new student will be given a welcome bag with a book, scissors, crayons, bookmark name bar to trace, glue stick and marker. We will be including slides about the Parent Council.
- There will be 21 classes next year with 3.5 Kindergarten classes. All of our classes are at cap. Junior classes are 27-29. Kindie classes are 29, 29, 29 and 15 and possibly 6 more. We may end up being 4 full classes but that is TBD. We will also have students from the Elizabeth Ziegler zone.
- School population for 2025/26 - 493 students starting next year. This year we are 498.

- Gr. 6 Student family picnic on June 25th. It will be outside - if the weather is bad we will move to the gym.
- On the last day of school at 3:35ish entire school will line the halls and clap out the leaving Gr. 6 students as they make their final walk out down the halls of Empire and out the door. They are going to camp on Jun 19th - its typically not overnight anymore. To capture some of the overnight feel there is a bonfire and bus transportation back. Popcorn funds are primarily paying for the trip - students will be paying $10. The trip includes lunch and dinner.
- We had Pita Pit this year. We supplemented for some families and some families donated, so we will be receiving money for that from Pita Pit and using this to appreciate the teachers.

STEM Event - Next Steps (Khaled - 20 min)

- There was a survey sent out to families.
- The PRO Grant requires us to do a survey and a final report. The due date is in a couple weeks.
- There is also a survey from Young Engineers.
- Khaled will create a draft and send it to the council.

Arts night update (Lindsay - 10 min)

- Starts at 5:00 and ends at 7:30 pm
- The Ice Cream vendor has been approved. Khaled has confirmed with the vendor. 10% of the revenue will come back to the Council. Khaled will ask if they can come earlier.
- Ms. Gilmour has changed the format up a tiny bit. Primary students will present their talents during the first hour, then we will have a break, and the junior students. There will also be artwork in the hallways and displays.

Retrospect on the school year

- Keeping a council and consistently meeting is great, not all school have this
- Wish list for next year: more time will be invested into the soccer goals project next year. If facilities can give us a name of a board-approved vendor that will be a good start. The baseball field is city-owned so we aren't able to install soccer nets in that space
- We managed to raise some funds as well as the ice cream and Pita Pit
- We can look at raising funds for a school sign outside on the front lawn
- Could we get on the waitlist for the UofW Stem night?

Adjournment

Next Meeting: Have a Wonderful Summer!
